Display Module
104
OS
Virtual Input Device Initiation Event
110
Define Initial Characteristics of Virtual Input Device
112
Define Outgoing Device
Virtual Input Device Deactivate Event
108
Input Device Module
Virtual Data Input
Provide Characteristics of Virtual Input Device
1100
Determine Characteristics of Display Image from Characteristics of Application and Input Device Display if Any
102
Application
Provide Indication of Characteristics of Application Display
