(57) **ABSTRACT**  
A buttonless communication device that uses a touchscreen display for entering and displaying data. The different modes of the device are displayed as icons on the display allowing the device to enter the mode enabled by contact of the appropriate icon. A telephone mode displays a keypad of icon numbers, a send icon, an end icon, and an entered telephone number display area. By contact with the appropriate icons, a telephone number can be called or an incoming call answered.
