Implanting medical device into patient
S2-1
Implanting rechargeable power supply into patient
S2-2
Implanting rechargeable power storage device into patient
S2-3
Implanting means for wirelessly receiving power into patient
S2-4
Positioning extra-corporeal power transmitting device around abdomen of patient
S2-5
Supply AC power to the extra-corporeal power transmitting device
S2-6
Receiving power at the rechargeable power supply from the extra-corporeal power transmitting device
S2-7
Converting received power into DC power
S2-8
Charging the implanted medical device
S2-9
