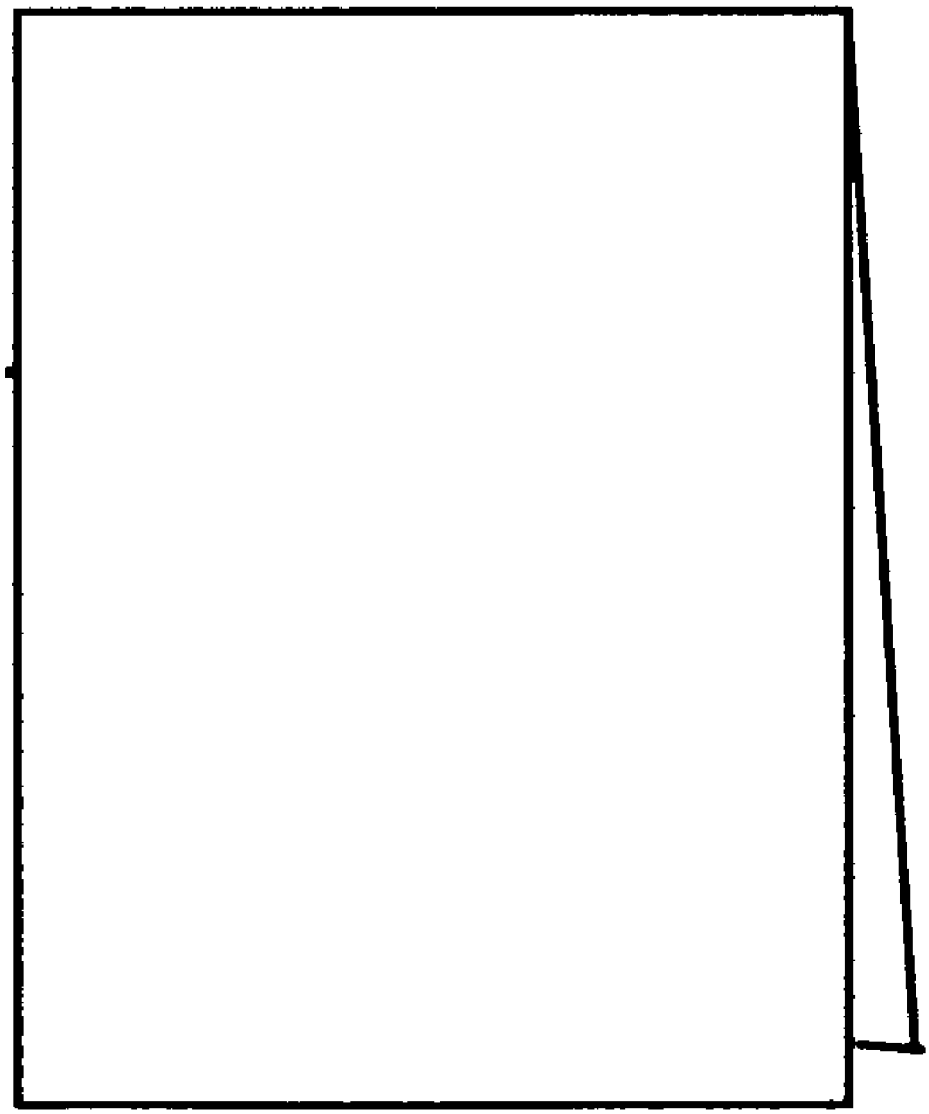
(57) **ABSTRACT**

This invention, Aswipe, is a pad lubricated with a white vasoline like pure petroleum jelly on a non-textile material like Kleenex, Viva paper towel, folded into a pad as shown in drawings. On page 3. FIG. **1**, the open sheet of soft material, Viva paper towel size (3"×11"). FIG. **2**, the sheet in FIG. **1** is folded in ½ and the center section, shown as a screened pattern (FIG. **3** page 4) is the lubricated area.

(A gentle lubricant, such as Vasoline, pure petroleum jelly).


The size is now (3"×5½"). FIG. **3**, the sheet in FIG. **3** is folded in ½ once more to a finished size of (3"×2⅞"). FIG. **5** the finished lubricated pad in FIG. **4**, ready for use, is then vacuum packed and heat-sealed into a plastic package, ready for use.
