1510
Form experience matrix e.g. by training
1515
Store experience matrices for access
1520
Receive an experience matrix
1525
Determine parameters for combining experience matrices
1530
Receive selection from user for selecting experience matrix
1535
Cause 1st and 2nd experience matrix to be combined
Form an incremental experience matrix
1540
Receive combined experience matrix
1545
Provide combined experience matrix to be accessed
1550
Access combined experience matrix and form prediction
1555
Control or adapt system based on prediction
1560
Upload an experience matrix to an application store
1570
