PANDORA GENOMICS

PGxReport™ – Clopidogrel
Drug Sensitivity Assay Results

Comprehensive List of Substances with Potential Interactions with Clopidogrel

- Interferons (alpha, beta)
- Ibuprofen
- Irinotecan
- Isoflurane
- Isoniazid
- Isosorbide
- Isradipine
- Itraconazole
- Ivermectin
- Ketamine
- Ketoconazole
- Ketoprofen
- LAAM
- Lansoprazole
- Lapatinib
- Leflunomide
- Levomidipine
- Levorolo
- Levothyroxine
- Levodopa
- Levomethadyl acetate hydrochloride
- Levonorgestrel
- Lidocaine
- Linezolid
- Lomustine
- Lopinavir
- Loratidine
- Lornoxicam
- Losartan
- Lovastatin
- Medroxyprogesterone
- Mefenamic acid
- Mefloquine
- Meloxicam
- Mephenytoin
- Mephobarbital
- Mephenytoin
- Mesterolol
- Methadone
- Methimazole
- Methocarbamol
- Methoxamine
- Methylchlorthiazone
- Methylergonovine
- Methylprednisolone
- Methysergide
- Metoprolol
- Metronidazole
- Metyrapone
- Mexiletine
- Mibefradil
- Miconazole
- Midazolam
- Mifepristone
- Mirtazapine
- Mitoxantrone
- Modafinil
- Moxidectine
- Montelukast
- Morfizine
- Nalidixic acid
- Naproxen
- Nateglinide
- Nelfinavir
- Nicardipine
- Nicotine
- Nifedipine
- Nilutamide
- Nimodipine
- Nisoldipine
- Nitrendipine
- Norfloxacin
- Norfloxacin
- Nortriptyline
- Ofloxacin
- Olanzapine
- Ondansetron
- Orphenadrine
- Oxybutynin
- Paclitaxel
- Pantoprazole
- Paroxetine
- Pergolide
- Perphenazine
- Phenacetin
- Phencyclidine
- Phenobarbitone
- Phenylbutazone
- Pilocarpine
- Pimozide
- Piroxicam
- Procainamide
- Propranolol
- Propofol
- Quinapril
- Quetiapine
- Quinidine
- Quinine
- Quinupristin
- Rabeprazole
- Raloxifene
- Repaglinide
- Ritonavir
- Risperidone
- Ritonavir
- Ropivacaine
- Rosiglitazone
- Rosuvastatin
- Roxithromycin
- Salmeterol
- Saquinavir
- Sertraline
- Sildenafil
- Simvastatin
- Sirolimus
- Sorafenib
- St. John's wort
- Sulfamethoxazole
- Sulfaphenazole
- Sulfonamides
- Suprofen
- Tacrine
- Tamoxifen
- Taxol
- Telithromycin
- Teniposide
- Terfenadine
- Tetracycline
- Tetrahydrocannabinol (THC)
- Theophylline
- Thiotepa
- Ticlopidine
- Ticarcillin
- Tolbutamide
- Topiramate
- Torsemide
- Trazodone
- Troleandomycin
- Valproate
- Vinblastine
- Voriconazole
- Zafirlukast
- Zalcitabine
- Zileuton
- Ziprasidone
- Zolmitriptan
- Zolpidem

Decrease the dose of the following substances

OR

Increase the dose of clopidogrel when taken in combination with the following substances

- Aminoglutethimide
- Azatadine
- Beta-naphthoflavone
- Broccoli
- Brussels sprouts
- Calcitriol
- Char-grilled meat
- Dicloxacillin
- Griseofulvin
- Insulin
- Methylcholanthrene
- Metyrapone
- Nafcillin
- Pentobarbital
- Rifapentine
- St. John's wort
- Tobacco
- Troglitazone
