PANDORA GENOMICS

PGxReport™ – Clopidogrel
Drug Sensitivity Assay Results

The table below indicates potentially harmful interactions with **commonly prescribed drugs** if simultaneously taken with clopidogrel. This list is not exhaustive, and there may be drugs that interact that do not appear on this list.

Suggestion	Drugs	
Decrease the dose of clopidogrel when taken in combination with the drugs at right ↓	• Albuterol (Proair; Proventil; Ventolin) • Amlodipine + Atorvastatin (Caduet) • Amlodipine + Olmesartan (Azor) • Amlodipine + Valsartan (Exforge) • Amlodipine + Benazepril (Lotrel) • Anastrazole (Arimidex) • Aripiprazole (Abilify) • Atomoxetine (Strattera) • Atorvastatin (Lipitor) • Budesonide (Entocort; Pulmicort) • Budesonide + Formoterol (Symbicort) • Buprenorphine + Naloxone (Suboxone) • Bupropion (Aplenzin; Budeprion; Wellbutrin; Zyban) • Carvedilol (Coreg) • Celecoxib (Celebrex) • Chlorpheniramine + Hydrocodone (Tussionex) • Ciprofloxacin + Dexamethasone (Ciprodex) • Cyclosporine (Gengraf; Neoral; Sandimmune) • Diclofenac (Cambia; Cataflam; Voltaren; Zipsor) • Donepezil (Aricept) • Doxycycline (Adoxa; Alodox; Avidoxy; Doryx; Monodox; Oracea; Oraxyl; Periostat; Vibramycin) • Duloxetine (Cymbalta) • Dutasteride (Avodart) • Eletriptan (Relpax) • Escitalopram (Lexapro) • Esomeprazole (Nexium) • Estradiol (Estrace; Femtrace; Gynodiol) • Estrogen – Conjugated (Estrace; Estring; Femring; Ortho Dienestrol; Premarin; PremPro; Vagifem) • Estrogen – Esterified (Estratab; Menest) • Estrogen + Progesterone (Ortho TriCyclen) • Ethinyl estradiol + Drospirenone (Yaz) • Ethinyl estradiol + Etonogestrel (NuvaRing) • Ethinyl estradiol + Norethindrone (Loestrin 24 Fe)	• Fenofibrate (Antara; Fenoglide; Lipofen; Lofibra; TriCor; Triglide) • Fentanyl (Actiq; Duragesic; Fentora; Onsolis) • Finasteride (Propecia; Proscar) • Fluticasone (Flonase; Flovent; Veramyst) • Fluticasone + Salmeterol (Advair) • Imatinib (Gleevec) • Insulin (Humulin; Lantus; Levemir; Novolin; NovoLog; ReliOn) • Interferon alpha 2b (Intron A; Roferon-A) • Interferon alpha 2b, pegylated (Pegasys) • Interferon beta 1a (Avonex) • Interferon beta 1b (Betaseron) • Irbesartan (Avapro; Avalide) • Lansoprazole (Prevacid) • Letrozole (Femara) • Levofloxacin (Levaquin) • Lidocaine (Lidoderm) • Lopinavir + Ritonavir (Kaletra) • Losartan (Cozaar) • Losartan + Hydrochlorothiazide (Hyzaar) • Modafinil (Provigil) • Mometasone (Asmanex; Nasonex) • Montelukast (Singulair) • Olanzapine (Zyprexa) • Pantoprazole (Protonix) • Rabeprazole (Aciphex) • Repaglinide (Prandin) • Risperidone (Risperdal) • Ritonavir (Norvir) • Rosiglitazone (Avandia) • Rosuvastatin (Crestor) • Sildenafil (Viagra) • Testosterone (Androderm; AndroGel; Axiron; FIRST-Testosterone; Fortesta; Testim; Testoderm) • Topiramate (Topamax; Topiragen) • Ziprasidone (Geodon) • Zolpidem (Ambien)
