Start
710
Time to release UE for UE distribution?
No
Yes
720
Determine access distance (e.g., and angle of arrival) for UE
730
Based on access distance (e.g., and angle of arrival) for UE and coverage distances for cells, filter cells in set of cells to determine reduced set of cells
740
Filter cells which do not provide reliable access at this access distance; keep cells that do
750
Perform UE distribution (e.g., load balancing) for UE based on reduced set of cells
760
Load balancing: round robin
770
Release UE to selected cell for UE distribution
