

17. The method according to claim 13, wherein:
said structure of said first tag comprises a clasp;
said structure of said second tag comprises a clasp; and
said method further comprises the steps of:
 engaging said clasp of said first tag to the structure of
 said first towel; and
 engaging said clasp of said second tag to the structure of
 said second towel.

18. The method according to claim 17, including one of (i)
and (ii), wherein (i) and (ii) are as follows:

(i) the unique, identifiable characteristics of said first tag
and said second tag comprise at least one of: shapes,
symbols, letters, numbers, colors, patterns, names,
words, objects, and pictures; and

(ii) the unique, identifiable characteristics of said first tag
and said second tag comprise at least one of: shapes,
symbols, letters, numbers, colors, patterns, names,
words, objects, and pictures;

said first tag comprises a loop;

said second tag comprises a loop; and

said method further comprises the steps of:

 hanging said first towel on a hook by said loop of said
 first tag attached and engaged thereto; and

 hanging said second towel on a hook by said loop of said
 second tag attached and engaged thereto.

19. The method according to claim 13, wherein:
said structure of said first tag comprises a clasp;
said structure of said second tag comprises a clasp; and
said method further comprises the steps of:
 engaging said clasp of said first tag through the structure
 of said first towel; and
 engaging said clasp of said second tag through the struc-
 ture of said second towel.

20. The method according to claim 19, including one of (i)
and (ii), wherein (i) and (ii) are as follows:

(i) the unique, identifiable characteristics of said first tag
and said second tag comprise at least one of: shapes,
symbols, letters, numbers, colors, patterns, names,
words, objects, and pictures; and

(ii) the unique, identifiable characteristics of said first tag
and said second tag comprise at least one of: shapes,
symbols, letters, numbers, colors, patterns, names,
words, objects, and pictures;

said first tag comprises a loop;

said second tag comprises a loop; and

said method further comprises the steps of:

 hanging said first towel on a hook by said loop of said
 first tag attached and engaged therethrough; and

 hanging said second towel on a hook by said loop of said
 second tag attached and engaged therethrough.
