(57) **ABSTRACT**

A method for preventing inflammation, comprising adminis-
tering to a subject a lymphocyte sequestering or depletion
agent before the onset of inflammation. A method for treating
inflammation caused by an injury or an infection, comprising
depleting immune lymphocyte of a subject by administering
to said subject a lymphocyte sequestering or depletion agent
during or after said event. A method for preventing or treating
abdominal adhesion comprising administering to a subject a
lymphocyte sequestering or a lymphocyte depletion agent.
